

## A DAVID LAW FOR THE GAS & SLATH.

Harburger Introduces a Bill to Strangle the Trust in New York.

DEMOCRATS WITH HIM.

Republicans Bent on Passing a Measure Favoring the Monopolists.

Albany, Feb. 7.—A bill making it a misdemeanor for the gas companies in the borough of Manhattan to consolidate was introduced today by Assemblyman Harburger, the father of the pending bill providing for 90-cent gas. To-day's bill was provoked by the attempt of the Astoria company to seize the streets of New York for the laying of gas mains and the creation of a gas trust.

In discussing his measure, Mr. Harburger said: "It seems absolutely necessary to kill the scheme outlined in the Astoria bill. If that passes the people of New York will be forever at the mercy of the trust and the day of cheaper gas will never come."

"There is a suspicion that the Republican party is behind the Astoria scheme. It is true, every effort will be made to enact it into law. It is my intention to advance the bill to the point of consolidation of gas companies as fast as the Astoria bill is advanced."

"They must be kept side by side, for if the Astoria bill is the interest of the people, when this is made clear, it is to be thought and the bill will have the hard work to antagonize it. If one passes the other will pass."

Mr. Harburger today asked Chairman Witter of the committee having the 90-cent gas bill in charge, when he would have a hearing. Mr. Witter replied that a date would be fixed for it within a few weeks. This means that an attempt is to be made to smother the bill in committee.

Such an attempt is likely to fail, for tomorrow Mr. Harburger will publicly demand that a date for a hearing be fixed at once and that it be within a week.

The Democrats will aid Mr. Harburger and there will be a lively time in the House unless the Republic decide to act fairly and openly in the matter.

## OLGA NETHERSOLE HAS BROOKLYN HYPNOTIZED.

English Actress Overshadows Vaudeville Entertainers in the Borough Across the Bridge.

The Paula Tanguary of Olga Nethersole is the best performance of that disorganizing character that has yet been seen at least in this country. She charmed a numerous and modish audience by it at the Manhattan Theatre on Monday night, and she is expected to repeat her performance at the theatre to-day. Last night she appeared in "The Terzaghi." Her acting in the title role of the play was so good, so earnest and so charming as it could be, was, however, not as productive of pleasure to her hearers as the present day, "The Terzaghi." The Terzaghi is not a play which will secure an extensive vogue with theatre-goers of the present day, but it is a play which will secure a vogue with the theatre-goers of the future. Olga Nethersole is a play which will secure a vogue with the theatre-goers of the future. Olga Nethersole is a play which will secure a vogue with the theatre-goers of the future.

A high-class comedy of the farcical order, with just enough of the "up to date" burlesque in it to make it a play for the theatre-goers of the future. Olga Nethersole is a play which will secure a vogue with the theatre-goers of the future.

Olga Nethersole is a play which will secure a vogue with the theatre-goers of the future. Olga Nethersole is a play which will secure a vogue with the theatre-goers of the future. Olga Nethersole is a play which will secure a vogue with the theatre-goers of the future.

## COMMISSION CALLS FOR A SAVINGS TAX.

State Board Urges a Law to Levy on Such Deposits, Which Means \$2,000,000 a Year.

Albany, Feb. 7.—The State Board of Tax Commissioners, in its annual report to the State Legislature, says:

"Some action seems to be imperatively called for at the hands of this Legislature with regard to the taxation of deposits in savings banks."

In our report for the year 1896 we called attention to the fact that the amounts of money were deposited in savings banks by people of comparative wealth, either because of the facility afforded for escaping taxation or because the income therefrom is as large as can be obtained elsewhere with equally satisfactory security, or for both reasons.

"The aggregate of deposits in savings banks in this State is now about \$800,000,000. A tax of only one-fourth of one per cent would produce, even allowing for proper deductions, an income of about \$2,000,000 to the State Treasury."

## To Retire Payne Moore Next Week.

Payne Moore, accused of badgering Martin Mahony, is to be tried for the second time on Tuesday or Wednesday of next week. Her counsel, Abraham Levy, said yesterday: "It is useless to try to make the District Attorney's office consent to the release of my client. I have made no effort since Mr. Mahony's bond was refused."

## MAIL STREET AS A SLIDE FOR ADULTS.

Dignified Bank Presidents Become Involuntary Patrons of It.

PROVIDED BY THE CITY.

Surface Resembles Frozen Philadelphia Scapple and Is Most Unyielding.

The limit of slipperiness in patent payments seems to have been reached in the new sidewalk on the north side of Mail street just above the Post Office.

It is made of a stone cement that has the appearance of petrified Philadelphia scapple. The surface is as smooth as that of scapple, but the scores of citizens who come to grief upon it and collapse with a thump report to inquiring and friendly that it is considerably harder than the foot that Quakers live on.

In snowy weather like that of yesterday the surface of the Scapple street sidewalk becomes much more glassy than the best skating ice. People whose sense of humor is so educated that they think it funny to see a citizen turn somersaults and gyrations and then land with a thump upon his head, can get all the fun they want by standing in Scapple street and watching the crowds perform.

The Park Department, in slippery weather, generally sends two men with a wheelbarrow full of sand to sprinkle on the ossified scapple. Both men, however, fell down on Monday and hurt themselves and could not be around yesterday.

It has been estimated that the cost of the sand required by the scapple sidewalk and the labor of scattering it would cause an increase in the tax rate of 5 per cent. If scapple sidewalks prevailed all over New York.

It is noticed that nearly all the new patent sidewalks in front of the big office buildings are highly slippery and dangerous. They do not, it seems, contain any gritty substance to arrest the sliding feet of the citizen. Builders say that the question of slipperiness does not enter into the profound brains of sidewalk inventors, who to most of their inventing in the Summer months.

The man who laid the mail wazons at the Scapple street end of the post office spent almost their entire time watching the public dundertown over the patent sidewalk and the mails and the book of the day. These mail clerks cannot be blamed for this, because the sight is a fascinating one. Here one sees the exquisitely laid New Yorkers do everything and then sit down, their hats flying under the wheels of wagons, their gloves splitting open and their gaiters coming down to a culvert. It is a great place for the collector of strange and unusual outbursts.

## THE WANAMAKER CLUB.

An Explanation Regarding the Coupons of the International Library.

In the large page ad. of the Wanamaker Store, which appeared on the last page of the Journal day before yesterday, announcing that the blunders had at last caught up with the orders for the International Library, three appeared a typographical error in the coupon blank in regard to references.

There were two coupon blanks. One was to be mailed with a dollar coupon, ordering a set of the International Library, with the privilege of ten days' inspection at the home, and agreeing to make fifteen more monthly payments. If the set was kept, if the set was returned within the stated time the dollar would be refunded. If the other coupon was mailed, the International Library, an interested in the announcement of your special first edition of the International Library and would like further particulars.

Name.....  
Address.....  
City.....  
State.....  
It was a mistake to have the word "reference" in this coupon.

The Wanamaker Club will gladly furnish descriptive matter and sample pages to any of the Journal readers, who by letter or postal card ask for the same. They will also answer special inquiries in regard to the length of selections, the kinds and styles of binding or any other matter which one interested wishes to know.

## STILL WRANGLING OVER NEW POLICE BILL.

Politicians Interested Fear That It May Become Necessary to Entirely Change Its Provisions.

Albany, N. Y., Feb. 7.—Yesterday morning the draft of the new police bill for New York City contained these provisions: A single-headed Police Commission, the head to be appointed by the Mayor; power to be placed in the hands of the Governor to relieve him on charges; extending the power of the Chief so he will be solely responsible for the conduct and efficiency of the force; making the Bureau of Election a State bureau by divorcing it from the Police Department and placing it in control of a commission to be named by the Governor.

The utmost secrecy has been thrown about the bill. Every man who has been made acquainted with its proposed provisions has been warned to remain silent on the ground that it might be found necessary to completely change it. "There has been a decided difference of opinion between the Platt-Gilbs crowd and the Governor concerning the placing of appointing power. The former insist that it should be vested in the Governor, but Governor Roosevelt vetoed this proposition on the score that it would be too severe a blow to the principle of home rule."

## Free to Men.

The Private Formula of a Noted Physician Made Known—Quickly Restores Weakened Mankind to Strength and Vigor.

Thousands of men will welcome the news that a most successful remedy has been found which will quickly cure them of any form of nervous debility, lost manhood, or lack of vigor, and restore the organs to natural strength and vigor of youth. As it costs nothing to get this wonderful formula it would seem that any man in need of such a remedy would send his name and address to Dr. W. Knapp, 1108 Hill Building, Detroit, Mich., and the prescription will be promptly mailed without evidence as to where it came from.

The Dr.'s object of distributing this information free is to make men better acquainted with the fact that the disease from debilitated nerves and wasted vigor is thoroughly explained and the sufferer will know what to do in the particular case in order to get the desired result. There is no doubt about the effect being genuine.

L. W. KNAPP, M.D., writes: "I have been acquainted with the fact that the disease from debilitated nerves and wasted vigor is thoroughly explained and the sufferer will know what to do in the particular case in order to get the desired result. There is no doubt about the effect being genuine."

## ENDORSED BY DOCTORS.

Paine's Celery Compound Counteracts the Nervous Strain of the School Room.

"I know of nothing so good as sleep, good digestion and the freedom from aches and pains that follow healthy organic functions."

Many years of suffering might be avoided, weary months of lost time put to good service, and thousands of lives saved if persons who do not sleep well and those with overworked brains and nerves would take Paine's celery compound. In the cure of nervous diseases this compound has again and again demonstrated its power to counteract these tonic ailments.

It is to general poor health that we are to look for the cause of headaches, rheumatism and neuralgia, and to overcome these troubles it is the general health that must be raised. Sick headaches that recur so periodically with most women and are so grievous an affliction should be treated as due to lowered nervous tone, and a thorough invigoration of the body should be undertaken with Paine's celery compound.

The general complaint now among intelligent women is that they are hurried and driven and fretted almost out of their senses by the demands upon their time and strength.

No wonder, then, the average woman has lost the capacity for sound sleep, good digestion and the freedom from aches and pains that follow healthy organic functions.
